DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Jensen (U.S. Patent 5,348,167).

Jensen discloses a method comprising: inserting a pegboard hook into a pegboard; wherein the pegboard hook comprises a first plate (16) having a front surface and a rear surface a member (12) having a first end and a second end, an extension (32) having a first end and a second end, a first prong (18) , a second prong (18): wherein the first prong is fixed to the rear surface of the first plate and protrudes outward in a first direction from the rear surface of the first plate, wherein the second prong is fixed to the rear surface of the first plate and protrudes outward in the first direction from the rear surface of the first plate; wherein the first end of the member is fixed to the front surface of the first plate and the member protrudes outward in a second direction from the front surface of the first plate, wherein the first end of the extension is fixed to the front surface of the first plate and the extension protrudes outward in a third direction from the front surface of the first plate; wherein the extension is comprised of a first portion connected to a second portion , the second portion lying nearer to the second end of the extension than the first portion ; wherein the first portion of the extension is not angled towards the member wherein the second portion (48) of the extension is angled towards the member

Art Unit: 3726

wherein the member overlaps the extension; and wherein the step of inserting the pegboard hook into the pegboard includes inserting the first prong into a first hole of the pegboard and inserting the second prong into a second hole of the pegboard, so that the member lies substantially directly above the extension (Figs. 1-5).
